2017
COLLECTION

INTRODUCING LASITA MAJA

We are pleased to present our 2017 collection. For nearly 20 years now, we have had the pleasure of offering you a selection of garden buildings and cabins for your holidays.

Over all these years, we have continued to commit ourselves to coming up with new projects for developing and improving our range of cabins. We constantly pay attention to changing market needs and expectations, so that we can bring you an increasing choice of cabins to suit your specifications, and to fit the special purpose you need them for. Each request is unique and requires its own original solution.

Lasita Maja is seeking to develop cabins that suit your outside world and life. You can use your new space for taking it easy while the kids play, or simply as an extra living area added onto your home.

To satisfy you, the customer, we decided to set up a total quality process including production, delivery and customer service. Genuine communication and interpersonal relations are vital from the moment we meet, to the delivery of your LASITA MAJA cabin.

Discover the brand new world we are offering you right now, we have broken new ground this year by developing three lines, contemporary, classic and basic, to keep even closer in touch with your needs.

AS Lasita Maja is an Estonian based company with a main manufacturing site in Tartu. We have been manufacturing log cabins since 1998 and have been steadily growing ever since. This allowed us to establish a new, state of the art 6,000m² manufacturing site in 2011. We have over 250 employees in 3 different factories and we produce over 35,000 quality buildings per year which totals for about 1200 full truckloads.

COMPANY PROFILE

Our door and window factory produces over 80,000 different doors and windows per year. The window factory is spread over 4,000m².

Three different factories enable us to make very different log cabin designs in 19 / 21 / 28 / 34 / 40 / 44, 70 or 94 mm wall thicknesses, varying from sheds, summerhouses, saunas, pavilions, garages and children playhouses up to special bespoke buildings for our best customers. There are over 400 different designs in our standard range plus countless numbers of bespoke projects, which illustrates our commitment to our customers.

We supply Internationally across Europe and Australia, USA, Japan, Russia, Turkey, UAE.

Customer satisfaction is our first priority, backed by our strict quality standards. On 27th November 2007, LRQA issued the quality management certificate ISO 9001. The FSC certificate is the proof of our environment friendly production policy, our eco-friendly timber management policy.

We supply only through our nominated UK agents. We do not supply direct to the end consumer, but we are happy to offer advice, and supply you with technical information.

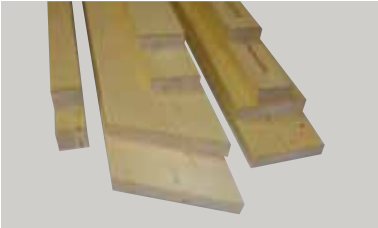

Garden House with corner connection assembly, available in a wide choice of sizes from slow grown Nordic Spruce, 14mm to 98mm

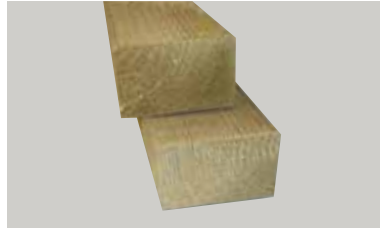

Doors & Windows from our DGP + (double glazed premium, are with silicone gasket to improve insulation of your cabin

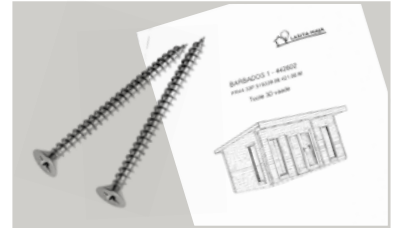

Our wall beam profile is made with a wind-tight connection, to ensure a warm cabin with no leaks

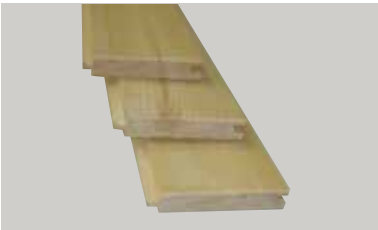

Fillets, beadings and mouldings included

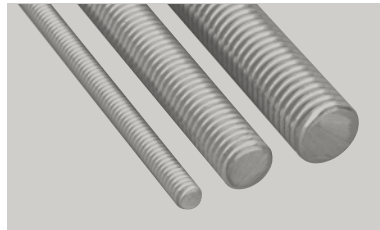

Impregnated bearers protects the building against humidity and extends its durability

Fixings and assembly instructions come with every building

18mm roof & floor boards come as standard on UK models (for bespoke or larger cabins we offer 28mm boards)

Wood storm protection or threaded rod depending on model, to protect house from strong winds

Our houses are packed carefully, on a real wooden pallet, with UV protection folio to preserve them of bad weather conditions and with strapping to ensure better stability during transport

Door Hinges on UK models are supplied now as DGP+ which are adjustable 5 ways

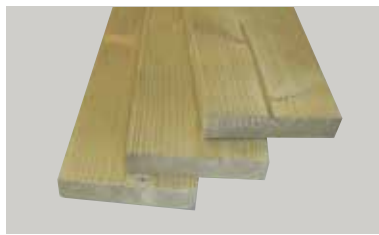

UK model cabins are supplied as standard with double glazed 3-6-3 real glass, silicone sealed

QUALITY CONTROL

External doors come with cylinder locks as standard with high quality finish

Terrace boards are impregnated

UK door openings come with aluminium low threshold

UK DGP+ windows are supplied with an Aluminium water gutter as standard to prevent water from entering

Windows with double closing system and tilt and turn opening system, except for horizontal fixed windows

Entry doors with low sill, to provide you easier acces to store your heavy garden tools and machines in your house

COMPANY PROFILE

An experienced supplier

In 20 years, we have become one of the leading manufacturers in Europe. With over 95% of our output exported abroad, we aim to rank among the top 10 European players in the market.

A genuine garden buildings manufacturer

LASITA MAJA is an experienced, clearly structured business with 3 manufacturing plants organised according to specialisation. Our main plant manufactures standard buildings and cabins in large series. Our second production unit supplies us with most of our joinery needs. Finally, our third plant is specialised in, and dedicated to, the manufacture of standard holiday cabins in 58 mm, 70 mm or 92 mm profiles. We make over 20,000 cabins a year, by combining our total mastery of traditional manufacturing techniques with modern and efficient high-tech processes.

Unparalleled quality

To fully satisfy our customers, we have set up a quality management system that complies with ISO standard 9001. What's more, our cabins come with a 2- or 5-year warranty (subject to the terms of our general sales conditions).

FSC®-Certified, Scandinavian wood

Our cabins are manufactured using Nordic spruce wood. We have chosen this wood of Scandinavian origin for its natural hardness, long life span, structural resistance and aesthetic appearance, brought about by the very slow growth of the trees, due to the very long, harsh winters.

Respect for the environment is our priority, we have therefore made the responsible choice to use wood obtained from forests managed in accordance with FSC® rules (Forest Stewardship Council).

Sophisticated product design

Inspired by the outdoor spirit, our range of cabins offers user-friendly, functional advantages, in either a classic or contemporary style. What's more, the expert skills of our designers and technical draughtsmen make us an ideal partner for the development of your personalised projects.

Sustainable partnerships

Our privileged partnerships with our customers are based on the search for joint commercial benefits in the long term. In order to meet our customers' needs and respond to the developments in our market, our company constantly strives to improve and perfect its work.

Flexibility of supply

Our sales team is renowned for its availability and responsiveness. It is willing and able to help you find solutions and adapt to last-minute changes and special requests.

Meeting our commitments

We make every endeavour to stick to our commitments to our customers and supply you with the required product on time. We can make speedy deliveries thanks to our coverage of the main European countries. Yet another reason why we should work together.

New for 2017
**IMPROVED DOOR
AND WINDOW
QUALITY**

Our UK cabins boast upgraded door and window hardware

Key features of our Double Glazed Premium Plus windows and doors:

- Lasita & Nordic doors and windows are extremely solid and robust in construction, for 2017 we have upgraded the quality of our hardware.
- Produced from Pine for a better quality finish.
- Doors and windows on our bespoke/nordic range have high quality double glazed sealed units 22mm ($U \geq 2,8$) Glazing from the outside with wooden glazing bead. Fastened with nails, sealed with silicone.
- Windows are fitted aluminum water gutter.
- All doors are fitted with a European cylinder lock, aluminum cover plates.
- All windows and doors are fitted with rubber draught excluders.
- Doors and windows are manufactured from laminated wood. This helps to prevent warping, but we also treat with Remmers Induline for extra protection.
- Sprung Lock
- Handy adjustable split hinges including protection covers for the hinges
- Doors are fitted with aluminum wear strip to protect the threshold.
- Crossbars have a simple click in clip system. Very handy for painting and cleaning.
- Doors can be hinged on right hand side without an extra charge.

ADDING FINISHING TOUCHES

We like to think we listen to our customers, and an example is the introduction this year of “The Bar”.

Our cabins are used for multiple purposes and a “man cave” is one of them, or just purely to entertain

friends and family, this neat bar, can be added to almost any sized cabin, and is easy to install, if shelves are

Required we can even send some additional logs to adapt it.

172.5 x 63

BERKSHIRE LOUVRE

4417040

ADDED FEATURES

The Berkshire is one of our most popular cabins but to shelter the porch we added an additional option of a side louvre.

HINGE COVERS

NEW FOR 2017

We are also now introducing hinge covers to provide additional protection to the hinges.

UPGRADE HANDLES

PREFER BETTER WINDOW AND LOCKING DOOR HANDLES?

As an option some customers demand only the best, so we now can send out sets of lockable window handles as an added option for more security, and higher grade door handles for a even better finish.

All our cabins come with either a two or five year warranty, but the cabins will outlive most of us as long as they are treated with wood preserver every couple of years.

DOOR

Lock, Cylinder, Handle & Plate

WINDOW

Locking window handle

FELT

We supply our cabins without roof covering, as we believe choice is what our customers are looking for. We offer options of felt in one colour, shingles in four colours and now Firestone EPDM.

CODE: RFE

EPDM

Our Firestone RubberGard EPDM LSFR (Low Slope Fire Retardant Roofing Membrane) is one of the best and well known in the industry comes with a 30 year guarantee but will last 50 years.

Can be applied to both Pent and flat roof cabins, our kit comes with the glue and sufficient material to cover your cabin. Contact us for fitting instructions.

EPDM GLUE (1 LITRE)

1 litre BossCover Spraybond Flexible EPDM glue. The most frequently used, and is a unique elastic EPDM-based adhesive with modified polymers, can be used on one surface only, and is correctable for half an hour.

SHINGLES

SHB (BLACK) - SHBR (BROWN) - SHG (GREEN) - SHR (RED)

Our Bitumen Shingles are manufactured by Shinglas / Mida, and conform to EN 544, are high quality mineral and synthetic reinforcement. We recommend use on roof pitches no less than 12 Degrees.

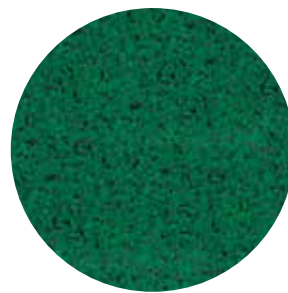

The Bitumionous shingle is the Rock Trio S Classic and our warranty period for shingles is 10 years. Thickness is $\geq 3,0$

SOLAR KIT

SP

Our solar panel kit, comes with everything you need to add some light into your cabin. it comes with:

1 x Small solar panel (15v 7W) 360 x 180 x 18.3

3 x 12V 3W LED bulbs

1 x Lamp switch

3 x Metres DC Line

1 x Power bank with 2 USB sockets to charge your phones or other accessories.

Full set of instructions for easy installation

Note: You will need to purchase a 2 to 3 pin plug adapter, should you wish to use the DC power supply.
